

GAT: Picture Analogies

Direction: This type of reasoning question is similar to word analogies and is solved in the same way as you solve word analogies. The question has a set of two pictures that are related to each other. This set is followed by another set; a picture and an empty box.

Each question is followed by four answer choices in the form of pictures. You have to choose one picture that would go in the empty box so that pictures in the second set are related to each other in the same way as the pictures in the first set are related to each other.

(1)

Answer: A

Explanation: A color plate is to a color brush as a reel of a thread is to a sewing needle, i.e., color brush and sewing needle are the tools needed to perform the task. So, the needle will go in the empty box.
